

Brad Holm

Profile

Mr. Holm has worked in engineering and energy related fields for over 20 years. He has considerable experience in all aspects of the oil/fuel industry from exploration/production to final distribution. Brad has worked in all phases and disciplines of engineering and engineering related fields ranging from design to project manager/lead to department/division lead. He continues to utilize his broad experience base in assisting clients to obtain the highest quality products for the minimum of cost and time.

His project management and construction management experience includes work on projects ranging in size from \$10k to over \$10mm. He maintains control of his projects from both financial and timing standpoints usually beating the project schedule and/or coming in under budget. Safety to personnel, property and the environment is of prime concern to Mr. Holm. No lost time accidents or property damage has been recorded in any of his managed projects.

Education

B.Sc. Chem. and Petrol. Refining Engin., Colorado School of Mines

1981

Career History

Campos EPC, Denver, CO

Feb.2006-Present
